PROFESSIONAL SUMMARY

A young, dynamic, result-oriented, and productive Full-Stack Web Developer and AI Engineer with a full decade of hands-on experience in software development, artificial intelligence, and modern web technologies. Currently pursuing a BSc in Computer Science and Engineering at Daffodil International University, with proven expertise in systems programming, machine learning, and full-stack development. Founder of three companies and creator of VoltixOS, a custom Linux distribution. I am a fast learner and an open-minded team player who is passionate about building innovative technology solutions.

Interests: Systems Programming | Machine Learning | Operating Systems | Full-Stack Development | Artificial Intelligence | Fintech | Blockchain | Computer Vision | Natural Language Processing

EDUCATION

Daffodil International University, Dhaka, Bangladesh

Expected 2029

Bachelor of Science (B.Sc.) in Computer Science & Engineering
Specializing in software engineering, artificial intelligence, and full-stack web development.

Adamjee Cantonment College, Dhaka, Bangladesh

2023

Higher Secondary Certificate (HSC) - Golden GPA 5.00 (Science Group)

Adamjee Cantonment Public School, Dhaka, Bangladesh

2021

Secondary School Certificate (SSC) - Golden GPA 5.00 (Science Group)

SKILLS AND COMPETENCES

Technical: Python, JavaScript/TypeScript, React.js, Node.js, Next.js, SQL, MongoDB, Docker, Linux/Systems Administration | AI/ML: LLM Development, Computer Vision (YOLO), Medical AI, Model Training & Quantization | Systems: Custom Linux Distribution (VoltixOS), Boot Architecture, Programming Language Design | Personal Strengths: Excellent communication, leadership, organizational skills, time and project management, creative problem-solving, strategic thinking.

PROFESSIONAL EXPERIENCE

Founder & Lead Developer - WeDevelop

2020 - Present

- Founded and manage a web development agency offering custom full-stack, AI integration, and digital transformation solutions.
- Lead projects from concept to deployment for clients across e-commerce, education, healthcare, and tech startups.

Founder & Owner - Najar (Clothing Store)

2023 - Present

- Founded an e-commerce clothing brand developing a complete platform with full-stack development and payment integration.

Founder & Owner - Optical Network

2019 - Present

- Created a free tech resource platform with 70,000+ tools, web links, courses, and developer articles.

Freelance Full-Stack Developer

2016 - Present

- Completed numerous projects across Fiverr, Upwork and Freelancer.com with consistent 5-star ratings.
- Specialized in responsive web design, backend APIs, CMS customization, and AI-powered web solutions.

MAJOR PROJECTS

VoltixOS - Custom Linux Distribution

Ultra-lightweight CLI OS built on Alpine Linux with custom boot architecture. Boots in seconds on 100MB RAM. Designed for cybersecurity, system recovery, and low-latency development.

SSAI - Large Language Model (4B Parameters)

Custom AI LLM trained on real datasets and quantized to 4B parameters for practical applications.

X-RAY - Medical AI System

AI model trained on real medical datasets to detect anomalies in X-ray images including pneumonia.

Visual Scanner & Danger Detector

YOLO-based computer vision system detecting hand signals for emergency situations.

SamionLang - Custom Programming Language

Python interpreter-based language using Bangla and AI commands with case-insensitive syntax.

Takajee - Mobile Financial Services Platform

MFS banking with international currency operations (like PayPal) at near-zero fees. Full KYC compliance.

Samion-QBLite - Cryptocurrency Token

Custom crypto token for decentralized transactions and blockchain applications.

CERTIFICATIONS

- Google Cloud ML Engineer Certificate - October 2024
- Google Ads 360 Certificate - November 2024
- Google Search Ads Certificate - November 2024
- IBM Full Stack Software Developer Professional Certificate
- Harvard CS50X - Introduction to Computer Science
- MITxPRO: Building AI Products and Services
- MITxPRO: Professional Certificate in Data Engineering

AWARDS & HONORS

- SAT Score: 1480
- Golden GPA 5.00 - HSC (Adamjee Cantonment College)
- Golden GPA 5.00 - SSC (Adamjee Cantonment Public School)
- Google Cloud ML Engineer Certification - A self-driven achievement
- Recognized for outstanding problem-solving and critical thinking skills

VOLUNTEERING & LEADERSHIP EXPERIENCE

- Member - BNCC (Bangladesh National Cadet Corps): Leadership training and community activities.
- Member - Computer Programming Club, DIU: Coding competitions and collaborative development.
- Active Contributor - CodePen: Published front-end projects and interactive design prototypes.
